Abyssinia. An able article in the S turday Review on the chances of an Abyssinian campaign contains a great deal of interesting information concerning the natural features of the country. The writer says:-As to the aspect of the country, it appears.

so far as nature is responsible, to be in many parts one of the most favoured regions of the catth's surface. Some districts are covered with dense pathless woods; others proclaim, in rugged peaks and rocky chisms, their volcanic origin; but there are numerous vallave and extensive plains, well-watered, abounding in game and of a soil that righly rewards with corn and vegotables the rude busbaudry of the untives. The roads scarcely deserve, the name being mere tracks on which no labout is bestowed following so steeply the abrupt undulations the country, and offering such difficult footbold as to render it frequently advisable to imitate the natives in journeying barefoot. Under such circumstances it is manifestly hopeless to at tempt to sapply an invading force by means o transport on wheels. A large amount of pack animals would be therefore indispensable. to the resources of the country in food and orago, notwithstanding its productiveners, the ravages and depopulation of war, and the rude condition of the arts of life, render it very doubtful at present how far we could rely even on a friendly district for supplies of this kind,

or for auxiliary transport.

have occurred which pinterially modify the case.
